Thank you for purchasing this theme. Please feel free to contact me if you have any questions or inquiries.

HTML

East is an app HTML landing page built using Bootstrap 3.1.1 framework. It features fully-responsive design with marketing blocks to showcase your apps or digital products.

`index.html` is the main HTML file of this theme.

The markups are well-commented and has the corresponding heading when you are to edit the CSS file.

For example, if you are to edit the footer in the HTML file:

```
<!-- Footer -->
```

Look for the following in the CSS file:

```
/*-----  
    FOOTER  
-----*/
```

HTML files included:

```
index.html  
index-2.html  
confirmation.html
```

CSS

`style.css` is the main CSS file for this theme. Aside from the Bootstrap core CSS file, here are the other CSS files included in this theme:

Font Awesome

`fontawesome.min.css`

Flexslider

`flexslider.css`

Owl Carousel

`owl.carousel.css`

`owl.theme.css`

Magnific Pop-up

`magnific-popup.css`

JAVASCRIPT

This theme has the default Bootstrap's core jQuery. `scripts.js` is the main js file. It is advisable not to edit these files. `scripts.js` contains all the plug-in initialization.

Includes some other plugins:

`jquery-1.10.2.min.js`

`jquery.easing.1.3.min.js`

`jquery.flexslider.min.js`

`jquery.owl.carousel.min.js`

`jquery.magnific-popup.min.js`

PHP

This template includes a working mailchimp subscribe forms. The files are commented to guide you how to change with your account.

`subscribe.php`

Setup MailChimp

1. Open `subscribe.php`
2. Enter your API key
3. Enter List ID
4. Important: Make sure to setup the correct submit URL
e.g
if you have us3 last 3 digit in your API key, you should change the URL to us3.

Default submit URL:

`http://us2.api.mailchimp.com/1.3/?method=listSubscribe`
